Teaching Practice Experience

I have wonderful experience during my TP in Manji Sahib Kotan. TP provided me experiences in the actual teaching and learning environment. During teaching practice, I, being a student-teacher am given the opportunity to try the art of teaching before actually getting into the real world of the teaching profession. Therefore, teaching practice offered me the opportunity to learn and develop as professional teachers along the dimensions of pedagogic knowledge, subject matter knowledge, pastoral knowledge, ecological knowledge, inquiry knowledge and personal knowledge.

Along with the subject knowledge the students are involved into curricular activities and sports activities for their overall development. I am very much thankful to the whole management, teaching and non-teaching staff members and students of Manji Sahib Kotan for giving me such a nice experience.

Lecture cum demonstration method is the most general lecture method used in classroom as through this method a student interacts with the teacher.

Teacher learner Interactions is very important for better learning and understanding. Lack of interaction try to create indiscipline in the classroom and disturb other students.

Sharing of Experience is very necessary so that they know the outcomes of various problems.

Relate with real life the teacher tries to teach topics correlated with real life for better understanding of learner.

Curriculum

I really loved the curriculum of this school as they don't put pressure and simultaneously complete their syllabus.

They have their session start from March and February of next week.

Detailed report on Students develops competence to organize academic, cultural, sports and community related events through various activities (2016-21)

Internship programme is systematically planned in the college with all the necessary preparedness. As per the syllabus by Panjab University Chandigarh there is a provision of pre-internship-1, pre-internship 2, and Internship program and post internship phase.

In pre-internship-1 a brief orientation programme arranged before sending the student teachers to schools to acquaint them with the objectives and modalities of such programme. During this programme, the student teachers observed the following:

1. Philosophy, aim and vision of the school.
2. Organization & Management (Affiliating body, type of school, type of management)
3. The school/classroom environments with reference to infrastructure (area and layout), equipments, curriculum (critical analysis of any class in both teaching subjects), teaching learning materials, utilization of human resources.
4. Various co-curricular activities related to dramatics, literary, sports and fine arts etc.
5. Morning Assembly (Observation of conduct and activities carried out during morning Assembly).

During this programme, the student teachers observe the following:

Principal 
A.S. College of Education

1. The teaching learning process in the real classroom, use of multimedia, student participation, classroom management. The student teachers observe teaching learning process for which they use observation schedules. The institute develops these schedules; and orients the student teachers on the process of observation as well as use of the schedules.

2. Evaluation procedures used in the school

a) Types of evaluation

b) Maintenance of examination records

3. Library resources

4. Types of Grants and Scholarships received by school

5. Record of any one stock register

At the end student teachers develop a detailed report of the local school as well as of the innovative school/ educational resource centre separately and present the same in the college.
